

BUSINESS INTERRUPTION SUM INSURED CALCULATION SHEET

How to calculate your Insurable Gross Profit

Insurable Gross Profit is the sum of your Turnover, Closing Stock & Work in Progress (**derived from your business at your Business premises**), less the sum of your Closing Stock & Work in Progress. **This has no relation to your taxable gross profit, either net or gross.** In certain situations you may wish to nominate some expenses that you do not wish to insure. This will save you some money in the form of your premium but it is fraught with danger, particularly in the case of a partial loss where such expenses may continue to occur.
